

REMARKS/ARGUMENTS

The amendments to the specification merely correct errors that were either made during the translation of the Japanese application or are typographical or clerical in nature and are apparent when read in the light of the whole specification. Correction of these errors would have been obvious to one of ordinary skill in the art. No new matter is added.

Claims 10 and 11 are amended. Amendments to these claims are merely clerical in nature. Therefore, no new matter is added.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
